

## *YOUR 50/30/20 MONEY BLUEPRINT*

The 50/30/20 rule is super simple: divide your after-tax income into three pots:

- 50% Needs: Your must-haves like rent, bills, and food.
- 30% Wants: Fun stuff! Think hobbies, eating out, and entertainment.
- 20% Future You: Savings, investments, and paying down debt.

### Quick Steps to Get Started:

1. Know Your Take-Home: What's left after taxes?
2. Sort Your Spending: Needs, wants, or future?
3. Aim for the Splits: Try to stick to the 50/30/20 guide.
4. Tweak as You Go: Life happens, adjust if needed!

Top Tip: Automate your "Future You" savings – set it and forget it!

## *THE 50/30/20 RULE*

Try this out on your finances and you'll see where the leaks are!
